Homeless Services System Performance in FY 2022 Dallas and Collin Counties

Community Trends Across Dallas and Collin Counties

This year, we saw a significant decrease in the number of neighbors experiencing chronic and unsheltered homelessness, which can be attributed to our community's investment in additional rehousing resources. This underscores the importance of continuing to prioritize housing interventions that aim to end a neighbor's homelessness, rather than temporary solutions. Increases in the number of people staying in temporary housing and crisis-based environments drove an overall increase in the count among Veterans, individuals in families, and youth. This sends a clear signal that when individuals and families seek assistance from the homeless response system, we must be equipped to offer immediate housing solutions.

Race Breakdown

45% Black or African American	.97% American Indian
45% White	0% Pacific Islander
7% Asian	2% Multiple Races

Black households make up just 20% of the general population in Dallas and Collin Counties but 45% of the homeless population.

Gender Breakdown

47% Female
51% Male
0.7% Gender that is not singularly 'Female' or 'Male'
0.7% Transgender
