

Point-in-Time (PIT) count, our annual census of our unhoused neighbors, a requirement under Federal Law, helps communities understand the extent of homelessness, changing trends, and the measure of their success.

4244

Individuals Experiencing Homelessness on a Single Night in 2023

4% Decrease in Homelessness Overall
14% Decrease in Unsheltered Homelessness

Homeless Services System Performance in FY 2022

Community Trends

This year, we saw a significant decrease in the number of neighbors experiencing chronic and unsheltered homelessness, which can be attributed to our community's investment in additional rehousing resources. This underscores the importance of continuing to prioritize housing interventions that aim to end a neighbor's homelessness, rather than temporary solutions. Increases in the number of people staying in temporary housing and crisis-based environments drove an overall increase in the count among Veterans, individuals in families, and youth. This sends a clear signal that when individuals and families seek assistance from the homeless response system, we must be equipped to offer immediate housing solutions.

Chronic Homelessness: 691

32% Decrease Since 2022

Veteran Homelessness: 365

21% Increase Since 2022

Youth Homelessness: 192

18% Increase Since 2022

Family Homelessness: 946

15% Increase Since 2022

Race Breakdown

Black households make up just 20% of the general population in Dallas and Collin Counties but 59.5% of the homeless population.
